ALFRED DUNBAR, JR.
Chief Engineer
(919) 821-8689

Mr. Kermit Geary
1266 Riverview Drive
Walnutport, PA 18088

Dear Mr. Geary:

Thank you for your letter dated August 23, 1992. First I wish to apologize for the delay in responding. Time just passes too rapidly.

Yes, it was our station WRAL-TV channel 5 out of Raleigh, North Carolina that you received Saturday night, August 22nd. Our transmitting site is located in Auburn, N.C., which is approximately 10 miles South East of Raleigh. Our Antenna is located on top of a 2000' above ground level tower. We are circular polarized, radiating 100 kilowatts in both the horizontal and vertical plane.

It still amazes me how much effect the atmosphere and magnetic activity from the sun has on RF. On rare occasions we get interference from channel 5's in Nashville Tennesse and Dallas Texas.

Thanks again for your letter. If you are ever in this area please stop by and we'll give you a tour.

Sincerely Yours,

Alfred Dunbar, Jr.
Chief Engineer
